Charles J. Ingersoil, embracing the events of 1814. In one well-printed two, volume of 318 pages, double columns, paper covers, price one dollar.

Mr. Ingersoil's position, as a member of Congress, during the war of 1812, and for many years since, has afforded him unusual opportunities for the collection of information from all sources, foreign and domestic, public and private. Of these advantages he has availed himself, and the result is an immense amount of curious and interesting matter, which now sees the light for the first time, and eluciates many hitherto doubtful points respecting the men and measures of that period. The volume is not confined to the mere details of the naval and military conflicts, but treats particularly of the legislative action, political movements, and causes and consequences of the struggle, together with sketches of the prominent actors. Among other matters will be found a chapter on the Bank of the Ultited States, from the charter to its winding up, with a plan of a bank from General Jackson.

Persons residing in the country can obtain this book, through the post office, by a remittance of one dollar to the publishers.
